UPTIME, the Disk Monthly

VOLUME 13 ✷ NUMBER 7

PROGRAMS

Pyramids of Egypt
Explore subterranean passages and try to recover the lost jewels of an ancient dynasty. Are these priceless treasures worth the many dangers you shall face in your quest? An arcade style adventure awaits you within the tombs.
John Romero

Backgammon
The oldest dice game still widely played comes to the computer. As you play against your Apple you realize why this game has been so popular for so long.

Jai-Alai
Fast paced sports action and an introduction to paramutuel wagering make this game fascinating.
Joe Heidcamp

Electronic Jukebox
Our monthly musical offering is for all you polka enthusiasts. Selections include: *The PA Polka*, *The Always Cheerful Polka* and *The Goodtimes Polka*
Gary Hayman

Algebra Tutor
It isn't algebra made easy; it's algebra made easier. The steps to solving an equation are broken down for you.
David Leithauser

The Drawing Board
An ongoing series. This issue features the remainder of the alphabet in monogram form.
Staff / Paul Raymer

Vision Times Tables
An educational tool for you; a fun experience for your youngster in learning his multiplication tables.
Vision Software

Word Fair
A very challenging word game. Search for the small words that are hidden within the large words. Much harder than it seems, but still lots of fun.
Carl Steadman

TUTORIALS

Approaching Appleworks™: 2
Join us as we investigate the world of Appleworks. This tutorial will cover the database, wordprocessing and spreadsheet functions of Appleworks. Will turn the novice into an expert.
Lee Swoboda

REVIEWS

TimeOut: 2
The second part of our in-depth look at Beagle Bros. *Appleworks Enhancer*. This issue we highlight *Superfonts*, *Graph*, *Quickspell* and *Sidespread*.

ARTICLES

To the Editor
Take a peek inside the UpTime mail bag and find out what our readers think and what they want.

Editorial
The Return of the Living Dead. Ten years ago, the computer industry was said to be in decline.

News & Views
Dan Gutman brings you up to date on the latest advances in computers and their effects on everyday living. In this issue he investigates the recent phenomena of electronic dictionaries.
